## ***WHOLESALE CLOTHING***

*We strive to provide articles with an accurate period appearance at affordable prices. In order to keep things economical we take certain liberties with our construction methods and fabrics. If, however, you should desire 100% natural fiber fabrics and totally authentic construction techniques, we would be happy to accommodate you at appropriately adjusted prices. Although the majority of our patterns and ready-made clothing is adapted from original pattern diagrams from magazines of the period, we make every effort to conform to modern day sizing. Unless your bust measurement is proportionally MUCH*

larger than your waist measurement, you should be able to follow the following waist-size chart. Additionally, people in the mid-19<sup>th</sup> Century had smaller bone structure and were used to more constrictive clothing. Therefore, you may want to enlarge the armholes or specify this desire when placing an order. All skirts are at least 120" in circumference, and about 43" long pleated or gathered into waistband with 2 sturdy hooks & eyes.

Size 8 has a 26" waist

Size 10 has a 28" waist

Size 12 has a 30" waist

Size 14 has a 32" waist

Size 16 has a 34" waist

Size 18 has a 36" waist

## **THE OCTAGON PATTERN SERIES**

All of our patterns are taken from period publications or designs based on items typically pictured in numerous period photographs. Our goal in producing these patterns is to provide authentic looking items for the beginning seamstress with average skills, using simple construction methods and clear instructions. Those with more experience can easily use more authentic methods if desired. We have tried to size our patterns according to modern size charts, but recommend to always check measurements carefully and advise to try each pattern in scrap material first to ascertain correct size and fit. Most of the patterns are multi-sized, and we have allowed for ¼" seam allowance. All patterns have been tested for easily understood instructions and clarity, as well as popularity and demand. These patterns have been on the market and available to the public through our sutlery for several years

*All of the patterns available through The Octagon can be made up as finished products to retail in your establishment.*

### **Wool Flowers**

Our frugal ancestors didn't waste anything. Using leftover scraps of wool yarns they fashioned flowers for arrangements under glass domes & wreaths for shadow boxes. Using the original instructions from period magazines such as the Godey's, we reproduce these flowers so often found in the fashionable Victorian parlor. Arrangements available in baskets, teacups or domes. Large quantities of separate flowers available upon request. Wholesale Price starts at \$25. Suggested Retail \$40 & up

### **Dressed Figures**

19<sup>th</sup> Century ladies often sought decorations for their homes that were both economical & samples of their own artistic creativity. To this end they sometimes cut a favorite fashion plate out of an old magazine, mounted it on board and "redressed" the figures using real fabrics & trims. We are now reproducing these unique wall decorations using copies of the original fashion plates. Wholesale Price \$50 & up. Suggested Retail \$100 & up.
